

Texas Panhandle Fire Update

March 20, 2024

The Texas Panhandle fires that started on February 26, 2024 are now 100% contained and residents in affected areas are assessing damages. Thanks to the generosity of so many people, there has been an abundance of items donated such as food, clothes, household items, and water. Now the immediate need is for gift-cards to help with resourcing those who have lost their homes, cash donations for those who are rebuilding, and agriculture items such as hay, feed, and fencing materials.

Thank you to our Global Methodist Churches in the affected and surrounding areas who have done a great job of responding to those in need. These churches will continue to help people as they assess damages and needs arise. The GM Churches of Stinnett, Miami, and Canadian have set up designated funds to help aid in relief and are also receiving gift-cards. Be in prayer for those affected, our GM churches, and their pastors as they help continue to assess needs and start helping with long-term recovery.

Immediate Needs:

Gift-Cards

Hay

Feed

Fencing Materials
